

§ 157.7 FAA determinations.

(a) The FAA will conduct an aeronautical study of an airport proposal and, after consultations with interested persons, as appropriate, issue a determination to the proponent and advise those concerned of the FAA determination. The FAA will consider matters such as the effects the proposed action would have on existing or contemplated traffic patterns of neighboring airports; the effects the proposed action would have on the existing airspace structure and projected programs of the FAA; and the effects that existing or proposed manmade objects (on file with the FAA) and natural objects within the affected area would have on the airport proposal. While determinations consider the effects of the proposed action on the safe and efficient use of airspace by aircraft and the safety of persons and property on the ground, the determinations are only advisory. Except for an objectionable determination, each determination will contain a determination-void date to facilitate efficient planning of the use of the navigable airspace. A determination does not relieve the proponent of responsibility for compliance with any local law, ordinance or regulation, or state or other Federal regulation. Aeronautical studies and determinations will not consider environmental or land use compatibility impacts.

(b) An airport determination issued under this part will be one of the following:

(1) *No objection.*

(2) *Conditional.* A conditional determination will identify the objectionable aspects of a project or action and specify the conditions which must be met and sustained to preclude an objectionable determination.

(3) *Objectionable.* An objectionable determination will specify the FAA's reasons for issuing such a determination.

(c) *Determination void date.* All work or action for which notice is required by this sub-part must be completed by the determination void date. Unless otherwise extended, revised, or terminated, an FAA determination becomes invalid on the day specified as the determination void date. Interested persons may, at least 15 days in advance of

the determination void date, petition the FAA official who issued the determination to:

(1) Revise the determination based on new facts that change the basis on which it was made; or

(2) Extend the determination void date. Determinations will be furnished to the proponent, aviation officials of the state concerned, and, when appropriate, local political bodies and other interested persons.

§ 157.9 Notice of completion.

Within 15 days after completion of any airport project covered by this part, the proponent of such project shall notify the FAA Airport District Office or Regional Office by submission of FAA Form 5010-5 or by letter. A copy of FAA Form 5010-5 will be provided with the FAA determination.

PART 158—PASSENGER FACILITY CHARGES (PFC'S)

Subpart A—General

Sec.

158.1 Applicability.

158.3 Definitions.

158.5 Authority to impose PFC's.

158.7 Exclusivity of authority.

158.9 Limitations.

158.11 Public agency request not to require collection of PFC's by a class of air carriers or foreign air carriers or for service to isolated communities.

158.13 Use of PFC revenue.

158.15 Project eligibility at PFC levels of \$1, \$2, or \$3.

158.17 Project eligibility at PFC levels of \$4 or \$4.50.

158.19 Requirement for competition plans.

Subpart B—Application and Approval

158.21 General.

158.23 Consultation with air carriers and foreign air carriers.

158.25 Applications.

158.27 Review of applications.

158.29 The Administrator's decision.

158.31 Duration of authority to impose a PFC after project implementation.

158.33 Duration of authority to impose a PFC before project implementation.

158.35 Extension of time to submit application to use PFC revenue.

158.37 Amendment of approved PFC.

158.39 Use of excess PFC revenue.
